OHIO PRIVATE INVESTMENT SURVEY 2013 - 2014 - 2015

The Ohio Development Services Agency annually compiles a database on announced business expansions and attractions. The database is gathered in a yearlong process of surveys of state agencies, chambers of commerce, and local development agencies.

To be listed, the project has to meet one of the following three criteria:

- a) Investment minimum of \$1,000,000, or
- b) Square footage of 20,000 or more, or
- c) Job creation of 20 or more (50 or more prior to 2014).

The project, to be considered, needs to be classified as Manufacturing, Distribution, Office, or Research & Development. While projects take several years to complete, the project is generally credited to the year that it was first announced.

Ohio's 2013, 2014, and 2015 databases were compiled from published reports appearing in Ohio newspapers and the F.W. Dodge Construction Reports. Further data were collected from the JobsOhio Network. The database is compiled and maintained by the Research Office.

The report lists the projects alphabetically by county within the six economic development regions of the state. Generally, the project is identified by the private-sector company that will be the tenant of the facility. The North American Industrial Classification System (NAICS) is a numeric classification system that defines the operations of the company. The NEW category recognizes facilities (existing or new) on a site that is new to the company. Investment, jobs, and square footage numbers are listed as published in news releases by the companies. While not a census, this survey of private investment activity attempts to be as complete and comprehensive as possible.

Projects from the 2015 list were submitted to *Site Selection* magazine, which annually ranks states based on the number of qualifying projects. State rankings usually are published in early March.

ANNUAL SUMMARIES

2015

- ◆ The Ohio Development Services Agency identified 469 projects;
- ◆ Private investment totaled just over \$5.9 billion;
- ◆ Job creation associated with the 469 projects totaled 27,496
— when the projects are fully operational;
- ◆ Of the total, 232 projects involved manufacturing operations; and
- ◆ 94 of these projects had some form of international investment.

2014

- ◆ The Ohio Development Services Agency identified 490 projects;
- ◆ Private investment totaled just under \$5.4 billion;
- ◆ Job creation associated with the 490 projects totaled 25,249
— when the projects are fully operational;
- ◆ Of the total, 257 projects involved manufacturing operations; and
- ◆ 68 of these projects had some form of international investment.

2013

- ◆ The Ohio Development Services Agency identified 409 projects;
- ◆ Private investment totaled just under \$6.0 billion;
- ◆ Job creation associated with the 409 projects totaled 20,686
— when the projects are fully operational;
- ◆ Of the total, 212 projects involved manufacturing operations; and
- ◆ 82 of these projects had some form of international investment.
